

Short & Long Term Property Management

Dulwich

2 1 1

Cosy, easy care private space, convenient to the city centre of Adelaide with the chill of the Eastern suburbs. Perfect for that week away from home for work where you have somewhere to cook a meal and kick back and relax in the evenings or for a weekend away for two couples.

A fantastic city base for SA country people looking for somewhere to treat as your own whether you're in town for shopping, to visit relatives or for health treatments. We know because we live in the country too.

When you arrive you'll be greeted by a mid-century style multi- apartment block with a rather small and challenging car space and you'll need to make you're way around the back to find your digs. The inside of the ground floor apartment has been completely refurbished in a neutral easy living style.
